17:01:14 From Richard Rutter : Hi Cindy. Looking forward to another great demonstration!

17:07:31 From George French : I like the background you are using that has the tool rest post going through it. What is that material and how thick?

17:15:50 From Scott 'Always Eating' Hampton : @George... Cindy said it's a light gray card stock/poster board.

17:21:27 From Richard Rutter : [http://cindydrozda.com/handouts\\_Pdfs/handouts/workshop%20handouts/TriangleBoxPrep.pdf](http://cindydrozda.com/handouts_Pdfs/handouts/workshop%20handouts/TriangleBoxPrep.pdf)

17:25:58 From Brenda Michael : can you show a picture of a piece of work with six sides?

17:33:16 From Chukk Browder : This may be a dumb question but how do you try it out on graph paper? Draw a side view to scale?

17:34:38 From Roger Umber : The two ends are mirror images of each other.

17:41:00 From Chukk Browder : Yes, great explanation, I understand now

17:41:19 From George Kabacinski : I really should have paid attention in high school geometry class!

17:47:00 From George Kabacinski : so the bottom wasn't really at the

blue line yet, then it was removed making the tenon.. why?  
17:48:41 From George Kabacinski : ah, yeah, now i remember. that was way back in last week.

17:59:04 From Cynthia Gibson : Sharpening Gouges: <https://youtu.be/rhEewtRlkNA>  
18:04:08 From Cynthia Gibson : Sandpaper: TurningWood.com, thesandingglove.com  
18:14:27 From Scott 'Always Eating' Hampton : ...and patience.  
18:17:37 From John Duckett : Is the little LED light battery or AC adaptor powered?  
18:19:12 From Robert Lyons : Do you sell video copies of your demos  
18:19:28 From Herschel Meaders : Sorry if I missed it, the scrapper you use to fine tune the recess did you make this? How do you sharpen it?  
18:24:05 From George Kabacinski : why Vimeo v. YouTube? maybe an after demo topic.  
18:24:56 From Marie Anderson : You do a great job of explaining it  
18:25:31 From Richard Rutter : Totally off topic but what would you recommend as a finish for pens?  
18:26:58 From Chukk Browder : How are you coming along on all the tool orders from the AAW symposium?  
18:29:44 From Cynthia Gibson : Jewelry Supply: Riogrande.com  
18:35:11 From George French : Is that medium thickness CA glue?  
18:38:22 From Scott 'Always Eating' Hampton : Cindy, did you measure the center points so the eyes of the burl will show on the face of the sides?  
18:40:18 From Richard Rutter : July 25 -Make the Most of Your Burl - \$10/person  
Cutting into a burl is like cutting a gemstone. To make my vessel the best piece possible, I want to cut the burl so that the figure is placed to advantage on the form. This presentation explains what I have learned about the anatomy of a burl, and how to cut it to show its best figure on your turnings. I will make a natural edged burl bowl, showing how I orient the piece on the lathe to get a balanced edge, turning and sanding the unsupported edge, and reverse chucking of a piece with an uneven rim.

Start time is 7am Hawaii, 9am Alaska, 10am Pacific, 11am Mountain, 12noon Central, 1pm Eastern, 2pm E Canada, 6pm UK, and 7pm Western Europe.

18:40:56 From Richard Rutter : That is Cindy's next demonstration this Saturday.  
18:49:35 From Scott 'Always Eating' Hampton : I took an all-day personal class with Paeter when he visited my club in Three Rivers, CA back in 2003. He taught me his method of making a similar box, but his math seemed a bit more complicated. Too bad Paeter had to retire from woodturning due to wood allergies.  
18:52:57 From Marie Anderson : Not true. This whole thing is fun!

19:00:02 From Steve Thomason : Wouldn't that be easier with a tear drop tool?

19:11:20 From George Kabacinski : would your vortex tool work for that v cut?

19:26:49 From Julie Schmidt : that makes me feel better. ha

19:30:36 From Cynthia Gibson : Jewelry Supply: Riogrande.com

19:30:56 From Scott 'Melting' Hampton : It's like going to a car race. Lots of folks want to see a wreck.

19:36:02 From Scott 'Melting' Hampton : I want that drill press chuck!!!

19:36:43 From Scott 'Melting' Hampton : I need one for my ornaments.

20:04:54 From Scott 'Melting' Hampton : Mike Mahoney offers downloads of his past videos on his website for a small fee.

20:05:12 From Michael McEwan : Its called Super Chat. Handles by You Tube and You Tube takes a cut.
